

Is this a list ?

Hi everyone, since i was such a disorganized guys i'll write you some tips and suggestions.

- First of all, remember that your driving licence is NOT a valid I.D. to take a plane. That could be a pity to discover it in the airport, especially if you do not have any other document with you (yes it happened to me, yes).

- That could be interesting to know a few words of spanish before to get on such a small island of the canaries. They almost don't speak a single word of English there so if you're not an Italian able to speak the sign language it will be difficult to get to your destination (roaming ? Ahahah, no no !).

- A good thing to do before leaving your home country is to check your cellphone plan and adapt it to your future necessity, that seems basic but i forgot it.

- In Spain, the creation of a bank account could be complicating since you don't have a looot of documentation to present so leave your home country with some cash to avoid charges at each withdraw.

- In the canary's islands they have their own way to prepare a coffee, everyone told me to try the "Baraquito" it's basically condensed milk, coffee with milk, a lemon zest, canela and ... a huge quantity of Liquor !
In the early morning that's not for everybody !!

- About food, because everything is about food, you'll find in Canaries bananas, mangoes, avocados and much more tropical fruits. That's a paradise for all types of vitamins !

- Is there someone here who doesn't know Madonna ? I discovered that her song 'La Isla Bonita' is about the island i were.

- Don't forget your snowkelling material, here the depths are from lava rocks and rich of fish. But remember that this is the ocean and here the streams and the waves can be really strong and dangerous.

I would like to conclude telling that in this time of trouble, fear and emergency, travelling and being a mobile worker in EU is still possible and an amazing experience and opportunity. Go for it !
